Cleveland Clinic **Advanced Endoscopy Course** (CADEC)

September 25–26, 2026 | ccfcme.org/CADEC2026

COURSE DESCRIPTION

This annual, hands-on international symposium, featuring two half-day surgical skills labs, is designed to educate attendees on the management of complex cases requiring advanced interventional endoscopy.

The focus is on delivering excellence in care, ensuring safety, and promoting a multidisciplinary approach for both academic and private practice endoscopists. CADEC will also explore, innovate, and share the latest procedures and devices aimed at improving minimally invasive endoscopic interventions, utilizing cutting-edge technology to treat patients effectively.

TARGET AUDIENCE

This course is designed for health care providers practicing endoscopy including **gastroenterologists, general and colorectal surgeons, advanced endoscopists and trainees, nurses and technicians.**

EDUCATIONAL OBJECTIVES

- Demonstrate effective and safe interventional endoscopy procedures to achieve optimal results, reduce complications and improve overall outcomes.
- Review evidence-based management and expert opinions in therapeutic endoscopy to improve patient care.
- Consolidate the indications, contraindications, procedure outcomes, management of complications, and techniques of therapeutic endoscopy to apply in the management of challenging cases with complex gastrointestinal tract disease.
