

Dear Exhibitors:

On behalf of the Cleveland Clinic Department of Pulmonary and Critical Care Medicine, we invite you to participate in the upcoming **Pulmonary Hypertension Summit**, on **January 16-17, 2025**. This will be a live, in-person event, held at the **Hollywood Beach Marriott** in Hollywood, Florida. The Summit is directed to physicians, physician assistants, and nurses with an interest in pulmonary hypertension. The activity is expected to draw an audience of approximately 150+ practitioners.

The 2025 Pulmonary Hypertension Summit will bring together local, national, and international experts to provide health care professionals with an in-depth review and analysis of the most recent advancements in the diagnosis and treatment of Pulmonary Hypertension. This two-day, CME-certified educational activity will, in turn, have positive effects on improving the quality of care for this patient population. More information on the program can be found at <http://ccfcme.org/PH2025>.

Highlights of this year's Summit:

- Hands-on Workshops with right heart catheterization simulation
- Updates from the 7th World Symposium
- Keynote speaker - Marc Humbert, MD
- Other speakers include Vallerie McLaughlin, MD, David Badesch, MD, Raymond Benza, MD, Nick Kim, MD, Oksana Schlobin, MD, Steve Mathai, MD and Jimmy Ford, MD
- Updated treatment algorithm
- Sessions on PH due to left heart and lung disease, and scleroderma
- CTEPH session with case discussion
- The patient perspective

New in 2025: Hands-on Workshops! Participants will join our Cleveland Clinic experts for interactive, experiential training to develop a fuller appreciation of PAH diagnosis and management.

If you have any questions or require further information, please feel free to contact me.

Kindest regards,

Jyl Rhoden
